To Whom It May Concern:

I certify that So Yeon Park (student ID# 05952549) passed all of her qualifying exams in the Mechanical Engineering PhD program at Stanford University on Monday, October 22nd, 2018. Her transcript does not reflect this accomplishment due to a clerical error. This letter serves as confirmation while her transcript is in the process of being updated. Please let me know if you need any additional information.

Best,
Michelle Lucas Rice
